[1] At least 95 per cent of samples must have counts not exceeding the mandatory limit values for total and faecal coliforms.
[2] Bathing waters are ordered clockwise starting with Scotland and are either grouped by EA region or country .
[3] In 1993, Northumbrian and Yorkshire were amalgamated into one region, now called North East; and Wessex and South West were amalgamated into one region, now called South West. Results for the old regions are given for comparison with earlier years.
[4] Bathing water newly identified for 2001 season.
[5] Alnmouth was de-designated in 1999
